

Operations System — Intern Task

Deadline: submit within 2 days of getting this message.

Project link: <https://github.com/Nehemia-joh/qrcode>

1. Get the project

- Open the project link above.
- Click Fork.
- On your computer, open a terminal and run:

```
git clone  
https://github.com/YOUR-GITHUB-USERNAME/qrcode.git
```

```
cd qrcode
```

Use your real GitHub username in that link.

2. Start the system

Run:

```
bash scripts/start-all.sh
```

If a port is already in use, run this, then start again:

```
bash scripts/stop-all.sh
```

```
bash scripts/start-all.sh
```

Wait until it finishes starting.

3. Open and log in

Open Operations:

```
http://localhost:8080/login
```

```
Username: admin
```

```
Password: admin123
```

Then open Bus QR:

```
http://localhost/school-bus-tracking/
```

If that does not open, try:

```
http://localhost:8081/
```

```
Username: admin
```

```
Password: admin123
```

Take a screenshot of each page after login.

4. Your real task (we will check this on GitHub)

Create a new file in the project:

```
docs/intern-submissions/YOUR-NAME.md
```

Example: if your name is Asha Juma, the file is:

```
docs/intern-submissions/Asha-Juma.md
```

Put this inside the file:

Intern name: YOUR FULL NAME

GitHub username: YOUR GITHUB USERNAME

Date completed: YYYY-MM-DD

Operations URL I opened: <http://localhost:8080/login>

Bus QR URL I opened: write the URL that worked for you

One thing I noticed in Operations: write one short sentence

One improvement idea: write one short sentence

Then save the file and run:

```
mkdir -p docs/intern-submissions
```

```
git add docs/intern-submissions/
```

```
git commit -m "Add intern assessment submission"
```

```
git push origin main
```

Then on GitHub:

- Open your fork
- Click Contribute → Open pull request
- Target repo: Nehemia-joh/qrcode
- Title: Intern assessment - YOUR FULL NAME
- Create the pull request

We will review your pull request on our side.

5. Send by email

Send:

- Screenshot of Operations after login
 - Screenshot of Bus QR after login
 - The link to your Pull Request
 - A few lines on what worked and what did not
-

If you get stuck

Write the exact error and which step failed.

Do not share the passwords with other people.

Good luck.
